**DETAILED ACTION*****Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: A device is provided for carrying a bible, the case being convertible to a lap desktop to support the bible during use. The four walled carrying case combines a skirt-like extension extendable by way of a spiral bound, pivotable elevating member adjacent to a spiral bound, pivotoable desktop member coupled to the back wall of the case and able to support a book as a planar lap support, lying above a support ridge coupled in a cavity to all four walls of the case, and below a flexible extending top. The prior art does not disclose the combination of all of these details in a carrying case. Therefore, the combination of all of these features in a carrying case for a book renders the invention allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
